

## Townhall RETEAG

Reteag is known from documents since 1283.

It lies between Transylvanian Field and Someșan Plateau.

Reteag is crossed by European Cluj-Dej-Beclean-Bistrița-Suceava. It is a little net of three villages Reteag-Batza-Poieni belonging to the county Bistrița-Nasaud (Romania, Europe). It has 2791 citizens including: 1582 Romanians, 419 Hungarians, 787 Roma people, 1 Serbian, 1 Turkish and a religious structure as it follows: 2125 Orthodox, 36 Romano-Catholic, 391 Protestant, 75 Greek Catholic (United with Rome), 121 Pentecostals, 8 other religions. There is a great desire of developing and modernisation. Unfortunately it is a region with less economical resources, thus little chances of professional development. We look for any good investments that could help this region.

This is our school that wears the name of a great schoolmaster who was born in Reteag: Ion Pop Reteganul...

Writer, untired secretary of ASTRA (Romanian Cultural Association), folk collector and innovator teacher, our ancestor **Ion Pop** (known as Reteganul) - 10 iunie 1853-4 aprilie 1905- is a model for the new generations of teachers and pupils...

Our Project: Following Ion Pop Reteganul

In 2007, the school from Sancel (county Alba) was baptised with the name of the same ancestor

The secondary School "Ion Pop Reteganul" from Reteag (comuna Petru Rareș, county (județul) BN, lying between the towns Dej (county .Cluj) and Beclean (county .B.N.) Educates the generations of students who after graduating 8th, attend high schools (liceu) or professional schools at little distance from home (about 12 km).

The very friendly environment and milieu is proved by the presence of good teachers and very responsible people who looking for the future build a little Center of Information and Documentation (idea Poitier-Sibiu with French partnership).
